Requirements

- Windows 2000, XP
- ZIP-Codes.com Database Subscription (all versions)
- dotNET 2.0 Framework

If you do not currently have subscription to the ZIP-Codes.com Database, you can get one here: <http://www.zip-codes.com/zip-code-database.asp>. This is required in order to run this application. This program will work with the Standard, Deluxe, or Business version.

The dotNet 2.0 Framework from Microsoft is also required in order to run this application. You can get this from running the "Windows Update" from your computer, or installing it from the included file. Simply extract and run the file named "dotnetfx.exe". Follow the onscreen prompts.

Installation

1. Simply uncompress the application from the ZIP file to a location on your computer.
2. Run the file by double clicking on the icon.
3. If a ZIP-Codes.com database is not present in the folder this file is being run from, it will ask you to select a database. Simply browse for the file and select it.

Our Products

ZIP Code Maps

5 Digit digital ZIP code maps are available for every state or county. These maps show all the 5 digit zip code boundaries for the area covered using clean, practical map colors and styles. To make our 5-digit Zip Code maps easier to read, we color neighboring ZIP codes uniquely plus we highlight every ZIP Code with its city name, zip code boundaries, county boundaries and highways.

Our digital Printable Maps were created using high resolution digital imagery and have been optimized for printed output, which allows for easy desktop use and reprint. Area code maps are also available.
